Arabic	Intermediate

About Me

I'm Ousman Ali, a Full Stack Developer who's passionate about building clean, efficient, and user-focused web and mobile applications. I work with Laravel, React, Next.js, and Flutter, and enjoy working on both the frontend and backend to bring ideas to life. I love learning new technologies, solving real problems, and continuously improving my skills. My goal is to create solutions that not only work well but also make a meaningful impact for users and teams I collaborate with.

WORK EXPERIENCE

Laundry Management system at keradion
technology

Keradion Technology

Aug 2025 – sep 2025

Contributed to the development of a Laundry Management System built with Laravel and Vue.js, gaining hands-on experience in system-level architecture design, backend development, and modular application structure. This project strengthened my ability to build scalable systems and understand end-to-end application workflows.

Website For StarFamily Industry PLC

Keradion Technology sep 2025

Developed a full-featured website for Star Family, utilizing Laravel for the backend, Next.js for the dashboard, and React.js for the user interface. Through this project, I gained hands-on experience in building and integrating modern web applications, managing both frontend and backend workflows, and delivering a seamless, responsive user experience.

TECH STACKS

Full Stack Laravel, React, Next.js

Frontend React, Next.js

Backend Laravel, Node

Mobile App Flutter

Website For Dematsa Trading PLC

Keradion Technology sep 2025

Developed a full-featured website for Dematsa Trading, using Laravel for the backend and Next.js for both the dashboard and user interface. This project enhanced my skills in full stack development, API integration, and building dynamic, responsive web applications with modern frameworks.
